

# Tsinghua Business Chinese

**A group of experienced language consultants of SCE, Tsinghua University, are dedicated to creating a community of business Chinese learning.**

## **Our Goals**

- Offer a top-rate learning environment for language learners
- Produce proficient business Chinese speakers
- Encourage cultural exchange and understanding

## **Our Method**

### ✧ **Customized Classes**

In order to ensure the success of our students our classes are tailored to each student's specific needs according to their levels, goals, and interests. Language consultants work with each student to target and meet their specific key needs.

### ✧ **Qualified Language Consultants**

Our language consultants are from top Chinese Universities, such as Tsinghua University and Beijing Language and Culture University. They bring with them different educational backgrounds in Chinese Business, International Trade, Law as well as Journalism, Communication, etc.

All of our language consultants receive extensive training in trans-cultural communication and teaching methodology based on Structural Linguistics.

### ✧ **Community**

We believe in three dimensional learning. Learning a language is only the first step to understanding a culture. In order to engender an appreciation for and instill a deep understanding of China, a series of language level appropriate activities and events are offered as well.

### ✧ **Course Design**

Corporations that require Our Chinese training program to provide individualized curriculum design for their employees are encouraged to take advantage of custom designed courses. Prices vary depending on each corporation's specific needs and employee schedules. After assessing the corporation's overall situation, The Language Center will present a final proposal that will include detailed design plans and pricing.

## **Corporate Packages**

Our business Chinese program corporate packages are designed specifically for corporations that require convenient service and efficient language training. In combination with our 1 on 1 and small group methodology, we include door-to-door service, class time instruction and corporate customized curriculum.

✧ **Corporate Rates (Hourly, Non-Cumulative)**

CLASS TYPE	Total Hours		
	1-99	100+	200+
